Pending Grants

National Institute of Health. PAR-17-496 Interventions Research to Improve Native American Health (Pearson & Walters). *Virtual (VR2L) Connections: HIV, Opiate and Oher Substance Use Prevention among Indigenous Sexual and Gender Minorities*. The proposed study involves a 5-year R01 to test the efficacy of Virtual (Vr2L) Connections, an Indigenous-centered, experiential, virtual multilevel behavioral enhancing intervention capitalizing on 3D visual world platforms. Through avatars, participants (300 indigenous sexual gender minorities) engage in cultural activities which draw upon protective and cultural resilience factors to help instill wellbeing and healthy behaviors; promote a sense of belonging, strengthen cultural identities, while simultaneously gaining knowledge and skills in HIV testing, safer sex, and opiate and other substance misuse prevention.
Role: Principal Investigator

National Institute of Health. PAR-17-496 Interventions Research to Improve Native American Health (Walker). Few substance use interventions have focused specifically on AIAN youth. The *Teen Marijuana Check-up (TMCU) is one* Motivational Enhancement Therapy (MET) *approach with strong empirical support*, and is a brief, school-based MET approach. We propose a 4-year trial to adapt and test the TMCU for Indigenous youth aged 13-18 who are using alcohol and/or marijuana and who are not in substance abuse treatment.
Role: Co Investigator
